It was a challenging Tuesday as bees were swarming and attacking in and around Quad 1. Thank you to Mesa Fire and Medical for their assistance. Three hives were located and removed by the bee removal company. While we hope this is the end of the bee problems, there is no certainty when dealing with nature. This quickly evolving situation highlighted the importance of our emergency text alert system with no cost to enroll, normal text messaging rates applies. Text "STOP" to opt out. Three information locations to choose from:

Even in the midst of a pandemic our community has to pay bills and staff. Your rent statements are being delivered to your door this week. Payment options include:

- ACH or direct payment from your bank is the easiest option. If you are set up, thank you. If you would like to get set up contact the front desk, we will get the form to you.
- If you or your family typically mail in payment through USPS that still works too.
- If you typically drop your payment off in community room or lobby, we ask that you call the front desk and we will have a staff member come to your door to retrieve payment. No cash please.

Psalms 90:1 "Lord, you have been our refuge in every generation". You are all an amazing example of how to face the challenges from the Coronavirus pandemic. Our team is praying for you and covets your prayers as well. To echo my pastor: *Jesus loves you, and so do we!*

In His Service,
